NOTIFICATION OF ACCEPTABILITY OF LAB PACK WASTE

The customers of Findly Chemical Disposal Inc. have received blanket approval for the shipment of lab pack waste materials to the USPCI Grassy Mountain Facility in Tooele County, Utah provided these wastes are acceptable under the applicable permits and regulations. The Grassy Mountain Facility can accept lab pack material subject to a contents review, which means that the lab pack materials proposed to be managed are inventoried and sent to the facility.

Upon receipt at the facility, the contents are reviewed for compliance with permit restrictions, compatibility, and the applicability of land disposal restrictions. This review of contents may indicate that certain materials which have been presented to Grassy Mountain Facility will require other treatment or rejection. Grassy Mountain Facility is not permitted to accept any pyrophoric materials, class A explosives, shock sensitive materials, radioactive materials, compressed gas cylinders or aerosol cans which do not meet the definition of an empty container, or listed dioxins (i.e F020, F021, F022, F023, F026, F027, or F028) except for storage.

Some materials may be tentatively accepted for storage at Grassy Mountain Facility in anticipation of shipment to third party treatment and storage facilities (e.g. incinerators). Grassy Mountain Facility can not guarantee to ultimate acceptance of these wastes at the third party facilities. If Grassy Mountain Facility is unable, despite its best efforts, to secure disposal at appropriate third-party facilities in a timely manner those wastes accepted for storage may be rejected back to the customer.

Attached is the standard notification of waste acceptance issued to Findly Disposal by Grassy Mountain Facility for lab pack material.

ACKNOWLEDGEMENT (This form must be completed and signed by authorized representative of each generator and on file at Grassy Mountain prior to acceptance of initial load.)

CERTIFICATION

I hereby certify to USPCI, Inc. that the contents of the lab packs covered by this certification have the following waste codes or characteristics.

Land Disposal Restrictions (40 CFR 268): Notification

☐ Do Not Apply to this stream.

☐ Apply to this stream, under following category/categories:

☐ Solvent/Dioxin

☐ I understand some materials with BDAT being incineration may be stored in anticipation of shipment to third party TSDF (ie. incineration) Grassy Mountain Facility cannot guarantee the ultimate acceptance of these wastes at the third party facilities. If Grassy Mountain is unable, despite it's best efforts, to secure disposal at appropriate third party facilities in a timely manner those wastes accepted for storage may be rejected back to the customer. Signature must accompany above statement if storage is desired.

Signature _____ Title _____

☐ This stream is an F001-F005 solvent:

<u>Constituent</u>	<u>Treatment Standard</u>
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

☐ This stream is a dioxin waste F020, F021, F022, F023, F026, F027 or F028.

Land Disposal Restrictions (40 CFR 268): Notification (continued)

☒ If waste to be accepted for landfill disposal after treatment by either USPCI Grassy Mountain or Iron Mountain facility (See Below):

☒ California List, specifically:

- ☒ pH less than 2
- ☐ PCB's
- ☐ Metal containing liquids
(Pb, As, Cd, Cr, Hg, Ni, Se, Tl)
- ☐ HOC's >1000 ppm (Appendix III 40 CFR Part 268)
- ☐ cyanide (free) liquids

☐ Third Third Waste Variance - The waste identified below is subject to a national capacity variance which expires on August 8, 1990.
(40 CFR 268.41, 42, 43) This variance applies to EPA hazardous waste code(s)

☐ Hard Hammer Waste - If waste shipment to be accepted for landfill disposal must meet treatment standards prior to burial.

EPA Waste Codes _____

☐ Special Category - If the waste shipment contains any of the following:

- ☐ Strong Oxidizers - Defined as potential explosives at excessive temperatures (i.e Ammonium Nitrate)
- ☐ Cyanide solids
- ☐ Sulfides solids or liquids

USPCI, Inc. may rely upon this authorization for the disposal of the lab packs covered by this certification. All contents of the lab packs covered by this certification have been identified with respect to the applicability of the Land Disposal Restrictions program. Furthermore, I certify that all lab pack containers are in compliance with 49 CFR Section 173.12, 173.24 and 173.25 and 40 CFR Section 264.316.
